11:30 Closing remarks & networking brunch

ABSTRACT

The **LIFE Debris2Resource** project is hosting a delegation of Ukrainian stakeholders in Italy for a technical exchange on the **sustainable management of debris and the reuse of materials in reconstruction processes**.

The meeting will provide an opportunity to explore the experience gained in the Central Italy territories affected by the earthquake, through direct dialogue with institutions, technical experts, and actors involved in reconstruction.

The event can be followed remotely by joining the Zoom link that will be sent after registration.

Working languages: Italian & Ukrainian

Simultaneous interpretation:

For online participants, the service is available in the language selected during registration. Those attending in person can listen by joining the meeting using their smartphone and headphones.
